FEELZ PI 301

Pentaerythrityl Tetraisostearate
CAS No.: 62125-22-8

Glowy Finish Emollient

Feelz PI 301 is a low spreading emollient that gives a rich, cushiony skin feel and leaves glossy skin.

Feelz PI 301 also has film-forming abilities without leaving a sticky residue. It is ideal emollient for long-lasting protective emulsions.

Benefits

- Gives rich and cushiony skin feel
- Leaves glossy skin
- Acts as film former

Application

- Color cosmetics
- Body care

Guidance Formulation: Rosy Glide Blush Stick

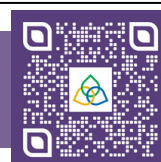

Phase	Ingredient	INCI	Function	%W/W
A	RBTD-67I-NJE2	Titanium Dioxide, Jojoba Esters	Colorant	1
	D&C Red 27	CI 46602	Colorant	2
	D&C Red 6	CI 90220	Colorant	3
	Reflez PGIS 23	Polyglyceryl-2 Tetraisostearate	Pigment Dispersion	0.7
	Butylene Glycol	Butylene Glycol	Moisturising Agent	6
B	Feelz PI 301	Pentaerythrityl Tetraisostearate	Emollient	UP TO 100
	Naturaz IL 208	Isoamyl Laurate	Emollient	7.5
	Jeenate 2H	Polyethylene	Binder	10
	Hectorite	Hectorite	Thickener	15
	Candelila Wax	Camdelila Wax	Binder	5
C	Dry Flo PC	Aluminium Starch Octenylsuccinate	Sensory Enhancer	10

Procedure:

Combine ingredients in Phase A according to sequence and heat to 80°C until homogenous. In separate beaker, combine Phase B and heat to 80°C until all melted. Add Phase C into bulk and mix until homogenous. Pour into container.
