NATURAZ CC 224

Coco-caprylate/Caprate

CAS No.: 95912-86-0

Naturaz CC 224 is a lightweight ester emollient that absorbs rapidly into the skin, providing a smooth and non-greasy feel. It helps improve pigment solubility when incorporated into colour formulations. The ingredient also offers excellent formulation stability and enhances product spreadability.

Benefits

- Lightweight
- Fast absorption
- Smooth and non greasy feel
- Improve pigment solubility

Application

- Colour Cosmetics
- Skin Care
- Sun care

Guided Formulation: BB CREAM

Phase	Ingredients	Function	%	Trade Name
A	Aqua	Film Former	15.8	
	Tetrasodium EDTA	Chelating Agent	0.1	
	Butylene Glycol	Humectant	5	
	Sodium Chloride	Stabiliser	1	
B	PEG-30 Dipolyhydroxystearate	Emulsifier	2	Reflez DPHS 30
	Sorbitan Olivat	Emulsifier	3	Reflez WO 802
	Isoamyl Laurate	Emollient	8	Naturaz IL 208
	Propylheptyl Caprylate	Emollient	5	Reflez PC 333
	Coco-Caprylate/Caprate	Emollient	10	Naturaz CC 224
	Oleyl Erucate	Emollient	7	Naturaz OE 231
	Cera Alba	Binder	2	
	Zinc Oxide, Coco-Caprylate/caprate	UV Filter	25	
B	Polyglyceryl-2 Trisostearate	Dispersant	5	Reflez PGIS 23
	Titanium Dioxide, Talc, Zinc Oxide, Iron Oxide, CI 22492, CI 77499, CI 77491, Hydrogen Dimethicone, Triethoxycaprylsilane	Colorant	8	
C	Phenoxyethanol, Ethylhexylglycerin	Preservative	0.8	Fortis PE 9010
	Aluminium Starch Octenylsuccinate	Sensory Modifier	2	
	Parfum	Parfum	0.3	

Procedure: Premix PHASE A in separate beaker. Mix well until all homogeneous. Premix PHASE B in main vessel. Premix PHASE C in separate beaker, mix until paste form then add in PHASE B. Mix well until homogeneous. Heat up to 80°C in water bath. Add PHASE A slowly in bulk under stirring homogeneous. Add PHASE D one by one into bulk. Mix well.
